

I am writing to oppose the proposed changes allowing LPFM priority over current FM translators. Specifically K-LOVE is my favorite station, which I listen to in my car and my home because I am encouraged by their music, and brief news coverage of issues important to my life. KLOVE is the only station where I am certain no offensive language will be used in their music, or their commentary, or announcements. I believe this offense-free programming is a vital service to our community in Phoenix, AZ.. This family friendly station should not be compromised. Thank you.
